

# Line Blaster Powder

## Spot Cleaner for Greenhouses & Nurseries

Unplugs Micro Irrigation Systems  
Removes Organics on Surfaces  
Cleans & Removes "Green" in Cool Pads

**DESCRIPTION:** The nursery & greenhouse cleaner of the future is now available - a non-corrosive product that breaks up into masses and removes organic matter. LINE BLASTER Powder can be used on floors, benches, tables, concrete, wood, and other surfaces. Do not apply directly to plants. LINE BLASTER Powder is fast dissolving and fast acting. Cleans and removes from surfaces on contact. LINE BLASTER Powder is environmentally appealing because it contains no soaps, phosphates, solvents, or detergents.

### 27% Line Blaster

**INGESTION:** Give 8 to 16 ounces of water to dilute substance. Call a physician or local Poison Control Center immediately. Never give anything by mouth to an unconscious person.  
**EYES:** Flush eyes with water for at least 15 minutes. If irritation persists, call a physician.  
**SKIN:** If skin becomes irritated, rinse with water.  
**INHALATION:** If symptoms of over exposure develop, remove to fresh air.

**CAUTION:**  
KEEP OUT OF REACH OF  
CHILDREN

**Application:** Wet area, lightly with water. Sprinkle the LINE BLASTER Powder directly on area. The heavier the growths, the more LINE BLASTER Powder is needed. Use a seed/fertilizer spreader to disperse over large areas. For large amounts of organics, additional Powder LINE BLASTER can be added or a second treatment can be applied at a later time. Spread on LINE BLASTER Powder and allow to work for 2-3 hours before repeating treatment. Rinse if necessary.  
For Cool Pads: Add 1-4 cups of LINE BLASTER Powder per 100 gallons of water, depending on the amount of fouling. Pour LBP directly into sump and mix. Repeat if necessary.
